The Details That Keep You Running

In the frac world, it's often the smaller parts that make the biggest difference. VP's line of frac parts is designed with the same precision and durability as our larger components. We know these are critical components that keep your equipment safe, efficient, and reliable.

Other Frac Components Include:

- Discharge Flanges
- Gauge Connections
- Pony Rods
- Fittings & Adapters
- Fluid End Tools
- Nuts
- Bolts
- Seals
